## **PROFESSIONAL ACTIVITIES**

- Research Councilor, Eye Department, Nikookari Eye Centre, Tabriz University of Medical Sciences, Tabriz, Iran
- Councilor in Scientific Committee of Oculoplastic group of Iranian congress of ophthalmology
- Scientific Reviewer for the journal of "BINA", Iranian Eye Bank Journal
- Scientific Reviewer for the journal of Iranian Journal of Ophthalmology
- Scientific Reviewer for the journal of Tabriz University of Medical Sciences

## **MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS**

- International Member of American Association for Pediatric Ophthalmology and Strabismus (AAPOS)
- Member of European Society of Strabismus (ESA)
- Member of International Strabismological Association (ISA)
- International Member of American Academy of Ophthalmology (AAO)
- Full member of the Iranian Society of Ophthalmic Plastic and Reconstructive Surgery (ISOPRS)
- Full member of the Iranian Society of Pediatric Ophthalmology and Strabismus (ISPOS)
- Full member of Iranian Society of Ophthalmology

## **CURRENT RESEARCH PROJECTS**

- Results of External DCR with and without Bicanalicular Silicon Intubation in PANDO
- Comparison of Bicanalicular and Monocanalicular intubation in External DCR of PANDO
- Results of External DCR with and without Monocanalicular Silicon Intubation in PANDO
- Surgical Management of Consecutive Exotropia
- Dose-effect ratio of levator resection in myogenic ptosis
- Prevalence and demographics of Duane's retraction syndrome in north west of Iran

## **NUMBER OF SURGICAL PROCEDURES PERFORMED PER YEAR**

- Strabismus: about 500-600
- Pediatric cataract: about 30
- Senile cataract: 300-400
- DCR (adult and children): 100-150
- Probing and Crawford intubation: 100-150
- Enucleation: 50
- Ptosis: 100-120
- Orbital surgeries: 50-100
- Other oculoplastic and orbital surgeries: 50-100
- Refractive surgery: 100
